

EditorialCalendar

Issue (ed. deadline)	Design Features (contributed)	Product Focus (staff written)	Case Studies (contributed)	Market Update Videos (staff produced)
Jan (12/1/10)	380-Vdc Building Power	LED Driver ICs	Digital Power Management	Green Building Power Forum
Feb (1/3/11)	GaN Power MOSFETS	Energy Harvesting Devices	Battery Management	CTO Power Summit
Mar (2/1/11)	Thermal Management	Power MOSFETs	DC Building Power	IEEE APEC
Apr (3/1/11)	Measuring Energy Use	Digital Controllers	Smart Grid Electronics	
May (4/1/11)	Low-Voltage DC Interconnection	Point-of-Load Converters	Large-Scale Energy Storage	PCIM Europe
Jun (5/2/11)	Wireless Power Transfer	Li-Ion Batteries	Power Factor Correction	
Jul (6/1/11)	Optimizing Efficiency	AC-DC Power Supplies	Designing with SiC FETs	Techno Frontier, Japan
Aug (7/1/11)	Digital Power	IGBTs	Energy Harvesting	
Sept (8/1/11)	Designing for the Smart Grid	Photovoltaic Inverters	Integrating Thin-Film Batteries	Darnell's Power Forum
Oct (9/1/11)	Power Factor Correction	Thin-Film Batteries	Optimizing Thermal Performance	Smart Grid Electronics Forum
Nov (10/3/11)	Implementing Energy Harvesting	Capacitors	Measuring Energy Efficiency	DC Building Europe
Dec (11/1/11)	Modeling and Simulation	Interconnect	Distributing Energy Resources	DC Building Power Japan

"It is a very important to get breaking information on new products. I read PowerPulse.Net daily."

-Engineering Manager, Boeing Commercial Airplanes
